

HOT WEATHER OUTDOOR AGILITY CLASS POLICY

If [weather.com](https://www.weather.com) forecasts 92° or above for Zip Code 87109, a class will be cancelled. For temperature below that, it is still vital to work and crate primarily in the shade. Both 2- and 4-leggeds need to stay hydrated, with frequent breaks. It is the instructors' responsibility to notify students of this policy.

**Individual instructors may alter that policy based on the needs of a specific class. In that case, the instructor will inform their students of any schedule change.*
